MINGLE WORKSHOP

Design your own
ring in silver.

WABI
SABI

Join us for a
1,5 hour
workshop and
create your own
ring in silver.

Our brand draws inspiration from the Japanese concept of *Wabi Sabi*, which centers on finding *beauty in imperfection*. This philosophy guides our design approach.

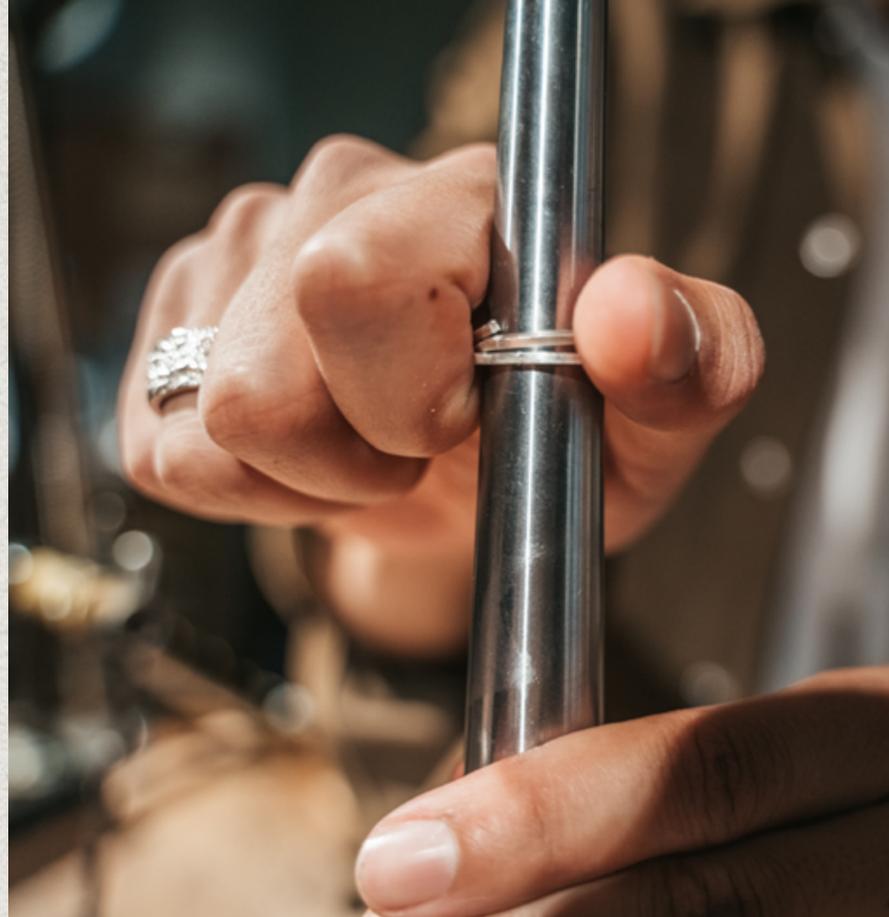

Our jewelry is created from the fusion of metal and fiery elements, drawing inspiration from the stark beauty of the Arctic wilderness and the vibrant energy of Tromsø – an urban metropolis.

Our workshop

You will be guided through the entire production process by our goldsmith.

We work with shaping, melting, regulation and renovation – and you get to do *almost* everything yourself.

By the end of the workshop, you will have crafted a one-of-a-kind silver ring of your own creation.

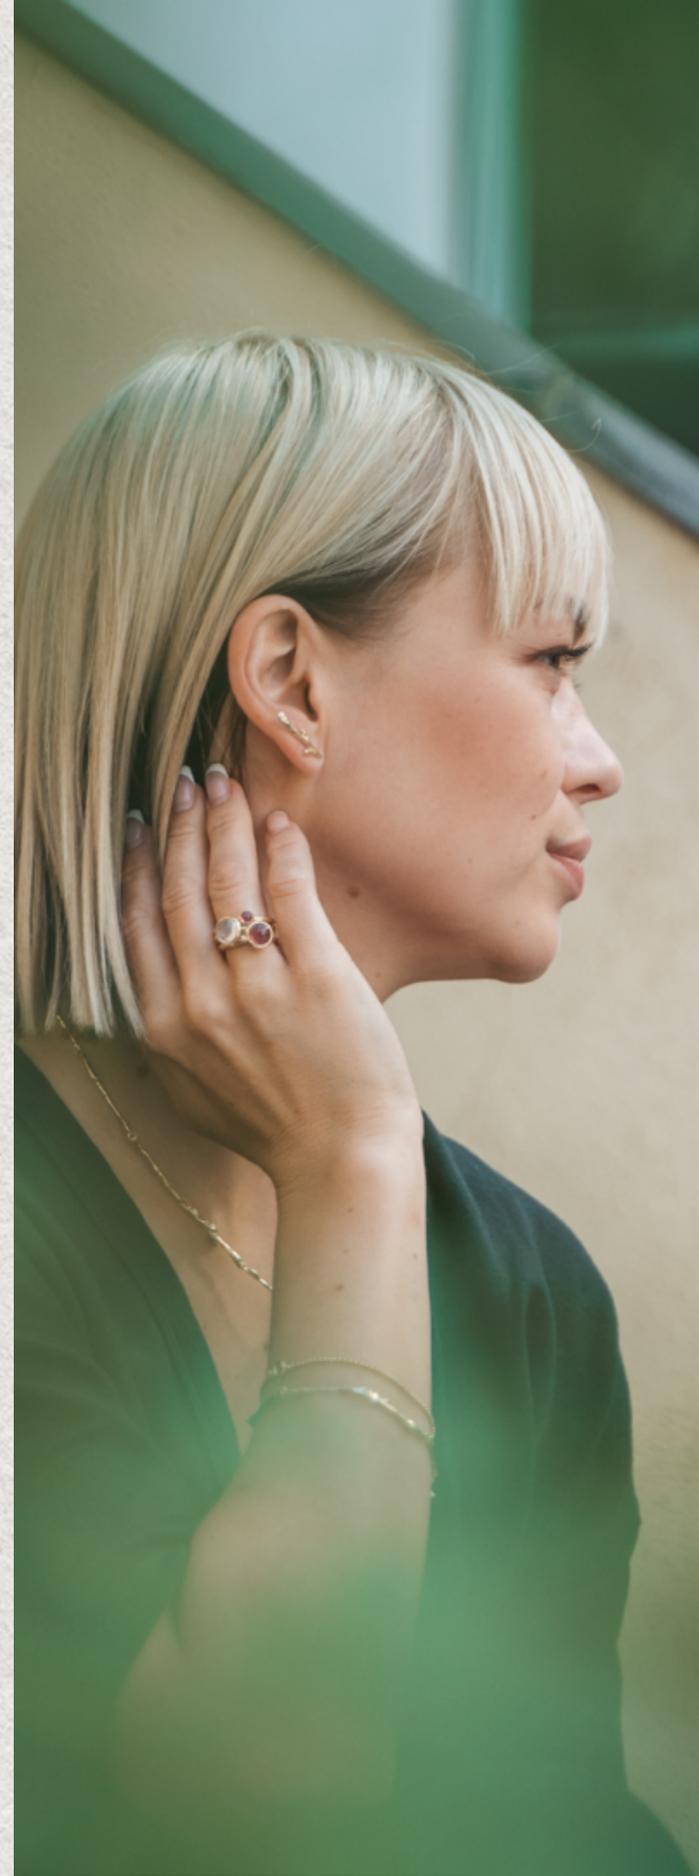

The ring you made yourself is completely unique to you – no one else in the world has one like it.

WABI

Discover *our* work

To conclude our experience, we will offer you some refreshment while you explore our shop.

Perhaps you will discover yet another treasure to bring home with you.
